

Elucidare opens new office on prestigious Cambridge Business Park

10 August 2009

Elucidare Limited ('Elucidare') today announces that it has opened a new office on the prestigious Cambridge Business Park. This move is in response to accelerating demand for its scientific, commercial and investment advisory services, and anticipates further expansion of the research team during 2010.

Fellow occupants of the Cambridge Business Park include the largest and most established technology firms in Europe, including 1Spatial, Autonomy, Cambridge Broadband Networks, CSR, MathWorks, and Red Gate Software.

David Nugent, CEO of Elucidare, said:

"Despite the global recession, this year is proving to be our busiest ever, and we look forward to further growth during 2010. We are delighted to expand into these larger premises alongside some of the most successful technology firms in the world. The breadth of technological expertise represented on the Business Park reflects our own multidisciplinary approach to scientific innovation and investment assessment."

About Elucidare

Founded by Dr David Nugent in 2003, Elucidare is an established independent scientific, commercialisation and investment advisory firm. Our objective is to provide expert advice across the entire innovation and investment cycle, from scientific discovery to commercial exploitation and trade sale or IPO. Typically operating in a behind-the-scenes capacity, our services include intellectual property creation, and the assessment and formation of university spin-outs. We specialise in conducting forensic scientific and commercial due diligence on behalf of financial and strategic investors.

Our customer base is comprised of more than 100 academic, investment and governmental institutions. This includes the largest technical universities in the UK and Ireland. Our largest industrial client has revenues exceeding \$20 billion; our smallest is a pre-patent spin-out from a European university. We do not work alone, but partner with the leading professional service firms in the UK, including patent agents, lawyers, corporate financiers, investment PR specialists, stock brokers, and investment banks.
